GT72 • GT80 Brush Tined Grapples

- Each unit includes two independent-action grapples that allow different-sized objects to be picked up in each grapple.
- Grapple opening of 38.2 inches allows operator to pick up large payloads.
- Precise 4-inch gap between tines allows for sifting and sorting of material.
- Like all Worksite Pro™ attachments, these grapples are optimized to work with John Deere 200 Series Skid Steers, and are compatible with most competitive models. See your local John Deere Skid Steer dealer for details.
